Introduction to 3D Printing at the Makerspace

Before operating any 3D printers at the Bellingham Makerspace, it's important to adhere to the following guidelines:

1. **Training Requirement:**
   - All users must be trained in the use and operation of the 3D printers.
   - Training can be obtained by taking an Introduction to 3D Printing class or by testing out of the class with a staff member or area lead.
2. **Available Printers:**
   - The Bellingham Makerspace provides access to three Bambulabs P1P printers, an Ender CR-10, and a CR-30.
3. **Payment for Prints:**

   - <u>Users are responsible for paying for their prints, including any support material used.</u>
4. **Safety and Responsibility:**
   - Operate the printers responsibly and adhere to all safety protocols outlined during training.
   - Do not operate printers without proper training on the equipment.

By following these guidelines, we can ensure a safe and efficient 3D printing environment at the Bellingham Makerspace. If you have any questions or require assistance, please don't hesitate to reach out to staff or area leads.
