

# Foldforming Resources

Foldforming is a metalworking technique developed by Charles Lewton-Brain, known for creating three-dimensional forms through a combination of folding, forging, annealing, and unfolding metal sheets.

## ?Books and videos

- **Foldforming** by Charles Lewton-Brain (definitive book, considered essential)
- **Metals Technic** by Tim McCreight
  - Contains a chapter on foldforming by Charles Lewton-Brain, alongside other metalsmithing techniques.
- **Rio Grande's Foldforming Videos**
