

Safety Information

Exits

There are two exterior exits on either side of the woodshop. There are also three exits into the common areas of the makerspace; one near the table saw, one near the wood storage area, and one near the metalworking area.

First-aid

There is a first aid kit in the bathroom, as well as on the pillar by the craft area.

AED location

In a medical emergency, call 911.

There is currently **no AED (automated external defibrillator) located in the wood shop.** or anywhere in the Bellingham Makerspace.. If an AED is added in the future, this page will be updated with its exact location. This information is current as of November 21 2025.

Fire extinguisher

There are fire extinguishers mounted throughout the shop at chest height.

Restroom

The restrooms are by the wood storage area.

PPE

PPE can be found on the wall across from the Wood CNC area.
